

Sound familiar?

Technology problems don't wait for class to end

Wi-Fi drops right in the middle of exams.

Chromebooks and laptops with no
management or inventory.

Email accounts compromised by phishing.

Days without systems after a hurricane.

Your tech person doesn't answer, or takes
weeks.

A different invoice every month.

If any of these sound familiar, your school needs
a technology partner that prevents problems, not
just one that fixes them.

Let's talk

Request your free technology assessment

We visit your school, evaluate your technology, and
deliver a report with recommendations. No cost,
no obligation.

Technology that teaches. Support that responds.

Complete technology support for private,
charter, and specialty schools in southeast
Puerto Rico.

Support request

Resolved

-  **7:42 a.m.** A teacher reports the projector has no signal.
-  **7:48 a.m.** Remote support connects and checks the computer.
-  **7:55 a.m.** Issue fixed. Class starts on time.

Education specialists, based in the southeast

- **Truly local**

We're based in Arroyo. When your school needs someone on site, we're there within 24 hours, not whenever a San Juan provider can fit you in.
- **Education experience**

More than 16 years in technology support, including schools with over 1,000 students.
- **Hurricane-ready**

Backups, backup internet, and a written recovery plan to get classes back on track as quickly as possible.
- **Fixed, predictable cost**

One monthly fee that covers complete support. No surprise invoices.

We know the school calendar, education platforms, and how important it is to protect student data.

Everything your school needs, in one package

- **User support**

Help desk, remote support, and on-site visits within 24 hours.
- **Network and infrastructure**

Wi-Fi, firewall, switches, monitoring, and content filtering.
- **Platforms and devices**

Google Workspace, Microsoft 365, Chromebooks, laptops, and iPads.
- **Security and backup**

Phishing and ransomware protection, plus tested backups.
- **Vendor management**

Internet, manufacturers, warranties, and licenses through one contact.
- **Technology planning**

Leadership meetings, device refresh plans, and annual budgeting.

From first visit to ongoing support

- 1

Free assessment

We review your network, devices, accounts, and backups.
- 2

Clear proposal

A findings report and a fixed monthly fee.
- 3

Smooth transition

We document everything and make changes, ideally over the summer.
- 4

Ongoing support

Help desk, monitoring, on-site visits, and leadership meetings.

Pricing model

Staff devices	per device
Student devices	per device
Infrastructure	network, Wi-Fi, firewall
Platforms	Google, Microsoft 365
